LED Par & Stage Lighting	17

Every model below ships with custom-gobo options, free lens guidance, and volume pricing up to 40% off. Tap any product for full specs and starting-at pricing — or visit infinityprojectors.com to order.

BUYING GUIDE

How to size your projector

Brighter rooms and longer throws need more wattage to stay sharp. Use this as a quick sizing guide, then confirm with the Wattage Finder. **Rule of thumb:** when in doubt, size up — headroom keeps the image crisp.

● Dark room ● Average light ● Bright / daylight

6 ft	15W	20-25W	30-35W
10 ft	20-25W	30-35W	50-55W
13 ft	30-35W	50-55W	60-65W
16 ft	50-55W	60-65W	80-90W
20 ft	60-65W	80-90W	100-110W
23 ft	80-90W	100-110W	120-150W
26 ft	100-110W	120-150W	160-200W
33 ft	150-160W	300-400W	500W
50 ft	200W	500W	600W
65 ft	300-400W	600W	700-800W
100 ft	500W	700-800W	700-800W
165 ft	600W	700-800W	1500W
230 ft	700-800W	1500W	—
350 ft	1500W	—	—

Not sure? The [Wattage Finder](#) prescribes your exact model in three questions. Full write-up: [Complete guide to buying projectors →](#)

Lenses & throw distance

The lens sets how big the image is at a given distance: **projected width $\approx$ throw distance $\times$ lens value**. Lower number = bigger, wider image up close; higher number = tighter, brighter image from far away.

0.25 Lens

0.25×

~7.5 ft wide at 30 ft

Big image, short throw — floors, tight rooms, near-wall

0.33 Lens

0.33×

~10 ft wide at 30 ft

Wide coverage at a moderate distance

0.50 Lens

0.50×

~15 ft wide at 30 ft

The everyday all-rounder for most logo jobs

1:1 Lens

1.1×

~33 ft wide at 30 ft

Image $\approx$ distance — standard projection

Long-throw

1.5–2.0×

~45–60 ft wide at 30 ft

Tight, bright image from far — facades, signage, long halls

TriScope™ 3-image prism

—

3 logos at once at 30 ft

Split one unit into three projected images — eye-catching multi-logo

PentaScope™ 5-image prism

—

5 logos at once at 30 ft

Five images from a single projector — maximum wow

Every projector includes a standard lens at **no charge**. Swapping to a different throw lens is a flat upgrade (typically **+\$100**, varies by model). Multi-image prism lenses and lens packages (3-lens \$238 · 5-lens \$338) are available on any unit. Full write-up: [Projection angle & lens guide →](#)

BUYING GUIDE

Gobo types & customization

The gobo is the image your projector casts — your logo or artwork, cut to spec. **Every projector ships with 2 free full-color custom gobos.** Need more designs, or stocking up for multiple sites? Additional gobos are priced per piece and get cheaper the more you order.

2 FREE / PROJECTOR

Full-color (glass)

Photographic detail, gradients and unlimited colors — printed on glass. The premium look, and what we include free.

LOWEST COST

One-color (metal)

A single solid color, laser-cut in steel — crisp, durable and the most economical. Pick any single color.

MANY IN ONE

Multi-gobo (4 / 6 / 8)

Several designs loaded in one unit — rotate campaigns or show a set without swapping glass.

PROJECTOR FEATURE

Spin mode

The gobo itself is static — it's the projector that rotates it in the beam for a moving, hypnotic look. Available on select multi-gobo models.

Every projector includes 2 free full-color custom gobos — your logo, cut to spec. Additional gobos and large-format sizes are priced online at checkout.
